

Bitcoin Transfer

Bitcoin transactions require the use of wallets. All Bitcoin users' wallets are assigned unique addresses. Transactions are recorded on the Blockchain.

Bitcoin can be transferred from one user's wallet to another. Therefore, forex brokers who accept Bitcoin will be required to accept deposits by having the trader transfer BTC to their wallet. In the same vein, Bitcoin withdrawals by traders involve the transfer of BTC from the broker's wallet to the trader's wallet.

Transfer using Bitcoin

You can deposit funds to your Viptrade account (Money Box or Trading) by Bitcoin transfer. The transfer may take some time, sometimes from a few hours.

Please, follow the next steps to deposit by Bitcoin.
